Institutional Commitment to Graduate Medical Education

Medical education is a major component of the mission of the Medical University of South Carolina, the Medical University Hospital Authority and the College of Medicine. The Board of Trustees, the President of MUSC and the administrators, faculty and staff are committed to provide graduate medical education using the financial, educational and personnel resources necessary to ensure the highest quality programs. These graduate medical education programs will further our mission of educating future physicians for the State of South Carolina while providing the highest quality care for our patients. We pledge to emphasize coordinated care with community physicians and to take advantage of cooperative opportunities to work with other institutions to fulfill mutual educational objectives.

We commit ourselves to provide graduate medical education programs that enable physicians in training to develop personal, clinical and professional competence under the guidance and supervision of the faculty and staff. The program directors will assure that patients receive safe, appropriate and humane care by resident physicians who will gradually assume responsibility for patient care based upon each trainee’s demonstrated clinical competence. We further commit to conduct these programs in compliance with the institutional and specific requirements of the ACGME, the JCAHO and in accordance with all applicable federal and state laws and regulations. As a major research institution, MUSC will encourage residents to participate in a wide range of scholarly activities including research and publications.

The proceeds from this issue will be used to replace the 2011 Bond Anticipation Note which was issued to finance the construction of the College of Dental Medicine building.

Recommendation of Committee: That the resolution be approved as presented.

Item 19 Refinance of South Carolina Jobs-Economic Development Authority Economic Development Revenue Bonds in the Amount of $24,800,000.

Ms. Lisa Montgomery presented a resolution authorizing the refinancing of the $24,800,000 outstanding principal amount of the South Carolina Jobs-Economic Development Authority Economic Development Revenue Bonds (CHS Development Company Project), Series 2003 in order to effect a net rental savings under the Lease Agreement between CHS Development Company and MUSC.

Prior to the vote, Chairman Stephenson recused himself from the vote due to a possible conflict of interest.
Recommendation of Committee: All members voted, except Chairman Thomas, that the resolution be approved.

**Item 20  Financial Status Report of the Medical University of South Carolina.**

Mr. Patrick Wamsley presented the August 31, 2012 Interim University Financials. He reported that at August 31st the University had 86 Days of Operating Cash, a Change in Net Assets of ($7.7 million) and a Current Funds margin of (6.94%). Mr. Wamsley explained that the major factors affecting net assets were the reduction of Federal ARRA grants, an increase in depreciation and reduced UMA Reimbursements, which he predicted to be a timing difference.

Recommendation of Committee: That this report be received as information

**Item 21  Financial Status Report of the MUSC Physicians.**

Ms. Gina Ramsey reported on the financial status of the MUSC Physicians. Charges are up $1M from the same period last year which is significant considering the loss of some key revenue-producing physicians. Collections are at $5M; Days in Accounts Receivable are moving in the right direction (38 days); Operating Margin is $8.4M; Total Margin is $1.2M. The drop in days cash on hand was anticipated due to the opening of the new East Cooper facility and purchase of property.

Recommendation of Committee: That this report be received as information

**Item 22  Financial Status Report of the MUSC Foundation for Research Development**

Ms. Deanne Lucas provided a report on the financial status of the MUSC Foundation for Research Development as of 8/3/12. For the first two months of the fiscal year, there is an increase in Net Assets of $118,000. The Foundation received a clean audit report for the fiscal year ended 6/30/12 from the independent auditors. The Increase in Net Assets reported by the audit was $625,000.

Recommendation of Committee: That this report be received as information

**Item 23  Other Committee Business.** Mr. Schulze was re-elected Chair of the Committee.

CONSENT AGENDA

None.

There being no further business, the meeting was adjourned.
RESOLUTION

BE IT RESOLVED by the Board of Trustees of the Medical University of South Carolina that:

The Administration of the Medical University of South Carolina is hereby authorized to proceed with the issuance of South Carolina State Institution Bonds in an amount not to exceed $28,000,000. The proceeds from this issue will be used to replace the 2011 Bond Anticipation Note which was issued to finance the construction of the College of Dental Medicine building.

Date: October 11, 2012

PROJECT TITLE: College of Nursing Building Floors 2-5 Interior Renovation

PROJECT NUMBER: H51-9819

PREVIOUSLY APPROVED BUDGET: $8,000,000
REVISED BUDGET FOR APPROVAL: $9,000,000

SOURCE OF FUNDS INCREASE: STATE DEFERRED MAINTENANCE MONEY

JUSTIFICATION: Renovation of floors 2-5 of the College of Nursing was approved in August, 2011 by the MUSC Board of Trustees, and the second/full approval by the Budget and Control Board was received in May of 2012.

A $1,000,000 elevator replacement was in the original conceptual scope of work because the elevator doors and cabs are unusually small and antiquated. Funding limitations required the elevator work to be reduced to controls and interior finishes improvements.

Since then, and after considerable discussion, it is clear that we have the opportunity to address the much needed elevator replacement while the College of Nursing Building is under major renovation by returning the $1.5 million Clinical Science Building Air Handler Replacement for consideration in FY13-14. This revised approach will result in a much needed elevator replacement for the College of Nursing Building at reduced cost and disruption. The remaining $500,000 will be used to address unexpected needs during this fiscal year. Associated project budget adjustments and new projects will be brought to the MUSC Board of Trustees for approval in accordance with Board policy as needed.
PROJECT FUNDS SOURCE CHANGES
FOR APPROVAL
October 9, 2012

PROJECT TITLE: College of Medicine Projects Listed Below

PROJECT NUMBERS: To Be Determined

FUNDS SOURCE CHANGE TOTAL: $1,000,000

SOURCE(S) OF FUNDS: INSTITUTIONAL CAPITAL PROJECT FUNDS

JUSTIFICATION: The Renovation of Walton Research Building Floors 2, 3, 6 & 7 was approved by the MUSC Board of Trustees in December, 2011, and will go before the Joint Bond Review Committee for second/full approval at the end of this month. This project, along with all of the other agency projects up for consideration at the August Joint Bond Review Committee meeting, was deferred to the October meeting.

Prior to presenting the project for MUSC Board of Trustees approval, the College of Medicine had requested University general funding of $1,000,000 toward the project to offset the $1,000,000 electric system upgrade as a deferred maintenance item. It was not known at that time how much money would be available this fiscal year for deferred maintenance, so it was decided to fully fund the Walton Research Building Renovation with Clinical Revenue, and consider a funds source change this year if funding was available.

It is recommended that the College of Medicine request be honored by offsetting $1,000,000 of clinical revenue with Institutional Capital Project Funds for the following projects included in the Capital Budget for this year instead of offsetting the $1,000,000 directly within the Walton Research Building project because of that project’s current approval process status:

- Basic Science Building 1st Biochemistry 5th and 7th Floor Renovations $500,000
- Basic Science Building 6th Floor Lab Renovation $250,000
- Darby Children’s Research Institute Lab Renovations $250,000
