Statement: Dr. O’Bryan stated Ms. Regina Brown, Vice President of Programs, Student Government Association, reported to the Committee that the SGA had surveyed students regarding the venue for graduation. She reported the survey showed that over 80% of the students are in favor of holding graduation in the Horseshoe for 2015.

In light of the students’ wishes, Dr. Johnson asked the board for further discussion of the location for graduation. It was noted that for the past several years the event had been held at the Citadel. The initial move took place due to inclement weather conditions and because of the comfort of the air-conditioned and spacious facilities, MUSC continued to use the location. Some issues were discussed including cost, closing the clinics, change to Saturday graduation, air-conditioned facilities, and limited seating in the Horseshoe for guests. However, the Student Government Association leadership is strongly in favor of moving back to the Horseshoe and surveyed students to get their input. The results were that 45% of students want graduation on the Horseshoe; 27% at the Citadel and another 27% wanted graduation someplace else.

Dr. Johnson asked Drs. Cole and Sothmann to return to the December meeting with a recommendation and with more information about the cost and other issues of one location versus another. Also, it was to be determined if a December decision was too late to make the change. If it was too late to move back to the Horseshoe for 2015, the change would be considered for the following year.

Those firms shortlisted would be interviewed on Wednesday before the Thursday and Friday board meetings. Members would come down around mid-day on Wednesday to conduct the interviews.

Mr. Bingham said he would also be getting a sub-committee together the 29th or 30th of October to review four projects to make a decision on what needs to be done with projects that have been on the list for years. Members would come down on the 29th or 30th and take a bus tour of each project. At the conclusion of the tour, information on the projects would be presented by Mr. Greg Weigle, Mr. Dennis Frasier and Mr. Tom Anderson to explain the history of the project and share administration’s recommendations on how to proceed. Dr. Johnson said Dr. Baker made a request that the Friday meeting time be moved to 8 a.m. due to the Friday commute back to the upstate and the increased traffic around Columbia. Dr. Johnson said that the meeting had been moved to 8 a.m. some years ago but that some members had complained that time was too early to be able to check out and get to the meeting. Dr. Johnson asked the Board to decide what time they wanted to meet. The members decided to meet at 8 a.m. and if that presented problems going forward, they could change it again. The next meeting on Friday, December 12, would begin at 8.

Dr. Johnson said if anyone had any groups or individuals present to the board, please let him know.

At this point, Ms. Annette Drachman stated the group of visitors who had been outside during the meeting, had requested that one of their signs be brought in and shared with the Board. Dr. Johnson stated the sign should be shared with the President’s Council meeting members. Ms. Drachman stated the other signs outside were similar but the visitors chose this sign to be presented. The visitors were told they could come in with t-shirts or items of clothing but that the signs would not be allowed.

**Item 37.  Report from the Chairman.** No report.

Item 7. General Report of the Associate Provost for Research
Mr. Fisher reported on behalf of Dr. Kathleen Brady who is out of the country. He noted that copies of the FY 2014 Annual Research Report had been placed at each member’s seat, and presented a few slides to summarize highlights for FY2014.

The first slide showed overall extramural research funding for the past 10 years, with extramural funding totaling nearly $218 million in FY14. A second slide showed a comparison of research funding by source between FY13 and FY14. There was a decline in federal research funding, both from the NIH and other federal agencies. Corporate, state and foundation funding showed minor changes between FY13 and FY14. The greatest positive change is seen in federal flow-through awards, which increased by about 24%, and is indicative of greater collaborations with investigators outside of MUSC. The final slide summarized significant new or competing renewal grants received in FY2014 including the Hollings Cancer Center Support Grant and the long-standing center in experimental and clinical studies of age-related hearing loss led by Dr. Judy Dubno in the Department of Otolaryngology. New awards include the South Carolina Research Center for Recovery from Stroke led by Dr. Steve Kautz in Health Professions, and a new, large scale, national data management center for stroke trials led by Dr. Yuko Palesch.
