The Distinguished Alumnus Award is given annually to one graduate of the MUSC College of Health Professions, Anesthesia for Nurses Program in any of the following areas: outstanding professional achievement, service to the individual’s profession, the community, the College, and/or the University, excellence in leadership, professional growth, and/or educational advancement or service.

Considering the selection criteria noted below, please use this electronic form to nominate an alumnus from the Program for this award. Please provide as much of the requested information as possible. Nominations should be forwarded to the address indicated below by April 17, 2017 for consideration in the May 20 award presentation.

SELECTION CRITERIA INCLUDE (but are not limited to):

Leadership

• Demonstrated leadership in professional practice, education or community

Professional Growth

• Been active in professional organization at the community, state or national level
• Served on committees or held office in professional organization(s)
• Published articles or submitted grant applications
• Introduced new technology, invention, or practice techniques
• Demonstrated active involvement with the College of Health Professions through membership in the Alumni Association or participation in its activities, providing guest lectures, participation in recruitment or admissions activities, etc.

Educational Advancement

• Participated in continuing education either through attendance or as a speaker
• Received or is pursuing an advanced degree

Community Involvement

• Participated in service to the community in civic organizations and/or service groups
• Received recognition for outstanding accomplishment in activities unrelated to profession

PLEASE NOTE: The alumnus need not meet all criteria to be nominated and considered for this award.
