

**Twenty-Fifth Annual**

**Charleston Anesthesia Conference**

**Charleston, South Carolina**

**May 4 — May 6, 2012**

## Program objectives:

Again this year we will feature an outstanding speaker panel with a diverse range of topics. At the completion of the conference, participants should be able to:

- understand CRNA Training/Roles as Effective Pain Management Team member.
- identify challenges to CRNA pain practice.
- describe the pathophysiology of neuropathic pain.
- utilize pharmacologic management of patients with neuropathic pain.
- evaluate the current literature regarding the state of patient safety in American Hospitals.
- identify the common sleep disorders and assess the impact of normal and abnormal sleep on human performance.
- discuss morbidity and mortality of burn injuries in the operating room (OR).
- have an understanding of the rare but fatal complications of trauma that occurs within the oral pharynx, trachea and bronchus..
- perform a complete airway assessment.
- Discuss post-tonsillectomy bleeding and the anesthetic management thereof.
- Describe three key issues for CRNAs contained within the Affordable Care Act.
- Describe the three primary messages to incorporate when communicating with local hospital leaders
- Outline appropriate orders following surgery or intrathecal opioids
- Formulate a plan for removing a lodged catheter.
- Identify the significance of the problem of medical errors.
