INNOVATION AWARD: 1st Place – Ryan J Downey (presenter), Dr. Na Jin Seo (Mentor) Health Professions
The TheraBracelet device is a wristband applying imperceptible vibration that can be used during hand therapy to enhance therapy outcomes for stroke survivors. It works by enhancing hand sensation and dexterity in stroke survivors while the device is on, thereby increasing the sensory and motor experience of patients during therapy, and consequently resulting in better therapy outcomes.

INNOVATION AWARD: 2nd Place – Elizabeth Hensley (presenter), Dr. Amanda Giles (Mentor) Occupational Therapy
This poster presentation highlighted the development and implementation of a mobile application called GONI, a comprehensive online textbook for learning goniometry methods. “GONI RehabLearning” is now available via the iTunes and Google Play stores. www.rehablearning.com
