Mt. Pleasant Spine Center

Kelly S. Barth, DO
Associate Professor of Psychiatry & Internal Medicine

Jeffrey J. Borchardt, Ph.D
Professor, Department of Psychiatry, Anesthesiology
Assistant Provost of Interprofessional Initiatives

Russell W. Chapin, MD
Assistant Professor of Radiology

Emily A. Durr, MD
Assistant Professor of Physical Medicine & Rehabilitation

Beatrice J. Hull, MD
Assistant Professor of Anesthesiology

Stephen P. Kalhorn, MD
Assistant Professor of Neurology, Neuromuscular Division

Bryan T. Kumiga, DO
Assistant Professor of Anesthesiology

Katherine M. Ruzhansky, MD
Professor and Division Director, Physical Therapy

Emily A. Darr, MD
Assistant Professor of Physical Medicine & Rehabilitation

Russell W. Chapin, MD
Assistant Professor of Radiology

Katherine M. Ruzhansky, MD
Professor and Division Director, Physical Therapy

Conference Faculty

- Charles A. Reitman, MD
  Co-Director, MUSC Spine Center
  Vice-Chair of Research and Development
  Professor of Neurosurgery

- Bruce M. Frankel, MD
  Professor of Neurosurgery
  Vice-Chair of Research and Development
  Co-Director, MUSC Spine Center
  Medical University of South Carolina

- Katherine M. Ruzhansky, MD
  Professor and Division Director, Physical Therapy
  Assistant Professor of Physical Medicine & Rehabilitation

- Bryan T. Kumiga, DO
  Associate Professor of Neurosurgery

- Stephen P. Kalhorn, MD
  Assistant Provost of Interprofessional Initiatives

- Beatrice J. Hull, MD
  Assistant Professor of Anesthesiology

- Emily A. Durr, MD
  Assistant Professor of Physical Medicine & Rehabilitation

- Katherine M. Ruzhansky, MD
  Assistant Professor of Neurology, Neuromuscular Division

- W. Alexander Vandergrift III, MD
  Associate Professor of Neurosurgery

Learning Objectives

At the conclusion of the conference, the participant should be able to:

1. Perform a focused history and physical assessment specific to the patient with spinal complaints
2. Discuss and educate the patient as to how their symptoms related to underlying pathology
3. Prescribe indicated diagnostic testing modalities
4. Review the results of diagnostic testing and develop a treatment plan according to best practices
5. Based on condition, make referral to appropriate specialist in a timely manner
6. Incorporate the value and timing of rehabilitation strategies to improve outcomes of patients with back pain
7. Recognize risk factors for poor bone density, as well as evaluation and treatment of the patient with suboptimal bone health
8. Identify the ethical quandaries around management of pain, particularly applied to opioid use

Syllabus:

ONLINE COURSE SYLLABUS

We’re going green in our efforts to “go green,” the syllabus will be provided online. Information will be emailed to you the week prior to the conference so that you may download a copy.

LEARNING OBJECTIVES

At the conclusion of the conference, the participant should be able to:

- Perform a focused history and physical examination specific to the patient with spinal complaints
- Discuss and educate the patient as to how their symptoms relate to underlying pathology
- Prescribe indicated diagnostic testing modalities
- Review the results of diagnostic testing and develop a treatment plan according to best practices
