Consumer Assessment of Healthcare Providers and Systems

CAHPS: What Every Physician at MUSC Needs to Know!

Join us for a special presentation for physicians, featuring CAHPS expert:

**Jeff Morris**  
MD, FACS, MBA

Friday, September 20, 2013  
8 – 11AM  
BSB Auditorium

When the Center for Medicare and Medicaid Services (CMS) begins public reporting of physician-specific CG CAHPS results, what will your data show?

Dr. Morris will discuss with physicians: Value Based Purchasing, CMS Physician Compare reporting, CAHPS surveys and how to manage the patient’s experience and improve compliance and outcomes while reducing risk.
About the Speaker

Jeff Morris
MD, FACS, MBA

Dr. Morris is a retired Orthopedic Surgeon with a special interest in Hand Surgery. He received his Board Certification at the Royal College of Physicians & Surgeons in Canada and is a Fellow of the American College of Surgeons. Morris has spent the majority of his career in Ohio and Canada and is a respected speaker, focusing on the importance of creating good healthcare environments, proper care and communication with patients and healthcare marketing.

American Board of Medical Specialties (ABMS) is incorporating patient experience data collection into the Maintenance of Certification (MOC) requirements. ABMS will use several of the CG-CAHPS questions as part of the measurement of interpersonal and communication skills requirements. More information can be found at the following websites:
