For dentists hoping to test drive different technologies in order to determine which is right for their practice

Course objectives:

- Learn about the three most popular digital impression systems on the market (CEREC Omnicam, 3Shape Trios III, and Planmeca Emerald) from MUSC dental faculty who use and teach these systems every day

- Use each of these scanners to image intraorally (because anyone can scan a typodont)

- See the workflow of scan and send to the lab versus scan and mill in-office (CAD/CAM)

- Learn the pros and cons of each system to help determine the best fit for your practice

- Discuss the different procedures that this technology can help you complete more efficiently

April 27th and 28th, 2018  |  Charleston, SC

Paving the Road to Digital Success
Selecting the right technology to help you improve practice efficiency

Friday, April 27th, 8am–5pm  I  Saturday April 28th, 8am–Noon
Location: MUSC Basic Science Building, 173 Ashley Ave., Room 433, Charleston, SC 29425
Tuition: $695  I  Registration link: http://hnrysc.hn/musc18

Dr. Wally Renne is the Assistant Dean for Technology and Digital Dentistry at MUSC. He has been using and teaching digital dentistry since 2009. He is responsible for developing the digital curriculum at MUSC that has since been replicated by many dental schools across the country.

Dr. Mark Ludlow is the Division Director for Implantology at MUSC. He has been using and teaching digital dentistry since 2009. He has lectured extensively on the integration of digital dentistry into the implant workflow.

Dr. Anthony Mennito is the Division Director for Digital Dentistry at MUSC. He has been using and teaching digital dentistry since 2010. He has lectured extensively on single visit CAD/CAM dentistry and intraoral scanning.

MUSC College of Dental Medicine is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. MUSC designates this activity for 12 continuing education credits.

The federal government imposes certain restrictions on, and pursuant to the Sunshine Act requires public reporting of, transfers of value to a practitioner. Participation in this event may qualify as a reportable transfer of value under the Sunshine Act provisions of the Patient Protection and Affordable Care Act. Your Henry Schein representative can advise you of the reportable amount.
