The Medical University of South Carolina Head & Neck Tumor Center and The Department of Otolaryngology - Head & Neck Surgery presents the 31st Annual

F. Johnson Putney Lectureship in Head & Neck Cancer

Friday, November 11, 2016
1:00 PM - 4:00 PM
MUSC Hollings Cancer Center
Charleston, SC

- Course Director –
  Terry A. Day, M.D.

- Research Director –
  David M. Neskey, M.D.
Learning Objectives:
At the end of this course the participant should be better able to:

- highlight the surgical advances of oral cavity surgery and to discuss future therapeutic options.
- describe the development and pilot-testing of a survivorship needs assessment planning tool for HN cancer patients and their caregivers after treatment
- examine whether compliance with proposed quality metrics is associated with improved survival in patients with laryngeal SCC treated with surgery with or without adjuvant therapy.
- identify areas of deficiency in inpatient documentation and to instruct health care professionals on how to improve the quality and accuracy of clinical records.
- define the mechanisms by which VEGF signaling mediates HNSCC metastasis via NEDD9 action, leading to the development of new therapeutic strategies targeting IGF, VEGF, and NEDD9 in HNSCC.
- demonstrate the importance of FXRt1 in antagonizing tumor cell senescence using human head and neck tumor tissues and multiple oral cancer cells including the cells expressing p53 wild-type and mutants.
- determine whether loss of NMIIA function in wtP53 harboring cells reduces its tumor suppressor capability, leading to invasive cell behavior similar to that seen in high-risk mtP53.
- present novel therapies that target genomic alterations in head and neck cancer.

This half day lectureship will bring together world class Head & Neck specialists to discuss the latest information and guidelines ranging from education to head and neck surgical anatomy and management of supraglottic cancers.

KEYNOTE SPEAKER

Jeffrey N. Myers, M.D., Ph.D., FACS
Professor, Department of Head & Neck Surgery
The University of Texas MD Anderson Cancer Center, Houston, Texas

Jeffrey N. Myers, M.D., Ph.D, FACS is currently Deputy Chair for Academic Programs, and Director of Research, Department of Head & Neck Surgery; and Director of Translational Research, Division of Surgery. He has a dual appointment as Professor in the Department of Cancer Biology.

Dr. Myers received his medical (M.D.) and doctoral (Ph.D.) degrees from the University of Pennsylvania School of Medicine. He then completed residency training in Otolaryngology-Head and Neck Surgery at the University of Pittsburgh. Dr. Myer subsequently completed fellowship training in Head and Neck Surgical Oncology at the University of Texas MD Anderson Cancer Center, where he has been on the faculty ever since.

Dr. Myers leads a basic and translational research program and his primary research interests are in the role of p53 mutation in oral cancer progression, metastasis and response to treatment.

F. Johnson Putney, M.D.

Born in Maryland, Dr. F. Johnson Putney was a graduate of Furman University. He attended medical school at Jefferson Medical College, where he also completed pathology and medical/surgical internships. While serving a preceptorship with Dr. Louis H. Clerf, he also studied anatomy at Harvard Medical School. He finished residency at Manhattan Eye, Ear and Throat hospital and continued there as a faculty developing his specialty in head and neck surgery and was a diplomate of the American Board of Otolaryngology.

Dr. Putney served in the United States Army in World War II and received the Meritorious Service Award. After the war, he taught and practiced at Thomas Jefferson Medical College and other Philadelphia hospitals. Fortunately for Charleston and MUSC, he joined the faculty in the Department of Otolaryngology in 1967 as Professor of Otolaryngology.

A founding member and first treasurer of the American Society for Head and Neck Surgery, Dr. Putney also served as President of the American Broncho-Esophagological Association, the American Laryngological Association and the South Carolina Otolaryngology Society. He has held offices in numerous other societies, including the American College of Surgeons, and is well known for his editorial abilities. The author of more than 100 articles and book chapters, he has been Guest of Honor of the ABEA and the ALA. Dr. Putney is a recipient of The Newcomb Award and was elected an Honorary Fellow of the American Society for Head and Neck Surgery in 1996. Dr. Putney died on December 17, 2004. He is survived by his wife, Ginger who still resides in Charleston. He is also survived by three sons, a daughter and five grandchildren.
