The Medical University of South Carolina
Otolaryngology – Head & Neck Surgery Division of Audiology presents

The 6th Pediatric Audiology Conference
Improving Spoken Language Outcomes for Children with Hearing Loss

March 23, 2018
Courtyard Marriott Mount Pleasant
Course Director: Meredith Holcomb, AuD, CCC-A
Clinical Director, Cochlear Implant Program

musc.edu/ent/cme
This one-day conference is designed for all providers (audiologists, speech pathologists, teachers of the deaf, early interventionists, hearing aid specialists, physicians, NPs, PAs, etc) involved in the care of hearing impaired children. The course will cover many key topics in the management of children with hearing loss. Our main objective is to provide the attendees with up-to-date knowledge in this field and to enable them to employ best current practices when servicing children with hearing loss.

**Credit Designations:**
AG Bell, American Academy of Audiology, and ASHA

**Registration**
For registration or information contact Julie Taylor
