8th Annual Otolaryngology Literature Update
July 13 & 14, 2018 | Kiawah Island Golf Resort, SC

The MUSC Department of Otolaryngology – Head and Neck Surgery is proud to present our 8th Annual Literature Update Course at the Kiawah Island Golf Resort, SC, on July 13 & 14, 2018.

How does a busy clinician stay current in our rapidly expanding specialty? The literature is replete with new or refined diagnostic procedures, operative interventions and treatment algorithms. It is a difficult, if not at times bewildering, task to digest this information.

This course is designed to help. Our faculty members are charged with reviewing last year’s literature in their subspecialty, and then choosing the six to eight best articles for critical review. To be considered best, we are especially looking for seminal works and those with a strong evidence base. Importantly, the manuscripts must have significant applicability to every day clinical practice.

The specialty – head and neck cancer, FPRS, otology-neurotology, endocrine disease, sleep disordered breathing, voice and swallowing disorders, and pediatric ENT will be covered in 15 lectures. You will receive a list of all articles reviewed and the presenters’ presentations. In two days, more than 100 manuscripts will be reviewed, and those “pearls” important to your practice will be emphasized. I believe that there may be no better way to stay current in our field than with this Literature Update Course. I hope you will join us in a beautiful location along the South Carolina coast this July.
