Medical University of South Carolina
Department of Otolaryngology - Head & Neck Surgery
November 2-3, 2018
MUSC Bioengineering Building
68 President Street, Charleston, SC 29425

Overview
This one and a half day intermediate conference, is designed for all providers involved in the care of patients with vestibular disorders (audiologists, neurotologists, otolaryngologists, primary care physicians, as well as advanced practice providers, VNG/ENG technicians and physical therapists). The course will cover many key topics with regards to evaluation and management of dizzy patients. Our objective is to provide the attendees with up-to-date knowledge in this field and to enable them to employ best current practices when servicing this population.

Topics
• Vestibular Anatomy and Physiology
• Clinical Evaluation and Management of the Dizzy Patient
• Benign Positional Paroxysmal Vertigo
• Migrainous Vertigo
• Audiology
• Vestibular Rehabilitation
