The Charleston Pharyngoesophageal Manometry Training Program

January 18 - 19, 2019
MUSC Health East Cooper Medical Pavilion | Mount Pleasant, SC

Course Director: Ashli K. O’Rourke, M.D.
Evelyn Trammell Institute for Voice and Swallowing

musc.edu/ent/cme
This 1-1/2 day program, designed for speech-language pathologists, laryngologists, and otolaryngologists, will consist of didactic sessions, hands on training experiences and real patient case examples to expand the participant’s understanding of pharyngoesophageal manometry. We will focus on the diagnostic and therapeutic capabilities of high resolution manometry as well as protocols for pharyngeal dysphagia patients.

Keynote Speaker
Gregory N. Postma, M.D.
Professor and Vice Chairman
Department of Otolaryngology-Head & Neck Surgery
Medical College of Georgia at Augusta University

MUSC Course Director
Ashli K. O’Rourke, M.D.
Associate Professor
Evelyn Trammell Institute for Voice and Swallowing

MUSC Speakers
Kate Davidson, MS, CCC-SLP
Research Associate, Speech Pathology

Julie Blair, MS, CCC-SLP
Speech Pathology

Angelina Schache, MS, CCC-SLP
Speech Pathology

Caroline Warren, MS, CCC-SLP
Speech Pathology

Complete faculty disclosures can be found on our website: musc.edu.ent/cme

Objectives
Upon completion, the participant should be better able to:

• Name at least two potential benefits of incorporating HRPM into laryngology and/or speech pathology clinical practices.
• Identify normal versus abnormal pharyngeal patterns on high resolution pharyngeal manometry tracings.
• Identify basic pharyngeal regions using HRPM.
• Demonstrate appropriate technique in placing manometry catheter.
• Identify patient populations that are appropriate for manometric studies.
• Explain the role of HRPM in the evaluation of swallowing disorders.
• Explain the role of HRPM in the treatment of swallowing disorders.
High resolution pharyngeal manometry (HRPM) is an emerging technology that is changing the diagnosis and management of pharyngeal dysphagia in exciting ways.

Dr. Ashli O’Rourke is an expert in dysphagia and high resolution manometry and leads the International High Resolution Pharyngeal Manometry Working Group that is publishing guidelines for interpretation of and training for HRPM. In collaboration with her colleagues, Dr. O’Rourke has established expertise in the standardization of training, interpreting, analyzing and reporting visual observation of pharyngoesophageal swallowing impairment from HRPM.

Credit Designation

This program is offered for a maximum of 1.05 ASHA CEUs (Intermediate level; Professional area.)

An annual ASHA CE Registry fee is required to register ASHA CEUs. CE Registry fees are paid by the participant directly to the ASHA National Office. The annual ASHA CE Registry fee allows registration of an unlimited number of ASHA CEUs for the calendar year. Contact the ASHA CE staff at (800) 498-2071 ext. 8591 for CE Registry fee subscription information.

Parking for the Conference

On campus parking will be available on site at 1600 Midtown Avenue, Charleston, SC 29464.

Americans with Disabilities Act

It is the policy of the Medical University of South Carolina not to discriminate against any person on the basis of disabilities. If you feel you need services or the auxiliary aids mentioned in this act in order to fully participate in this continuing medical education activity, please call the Department of Otolaryngology – Head and Neck Surgery at 843-876-0943 or attach a note to your registration.

Hotel Reservations

Rooms have been reserved for this conference in two locations. Please call the hotel directly to book your room(s). Ask for the MUSC HRPM group rate.

Group rates expire December 27, 2019.

Courtyard Marriott Mount Pleasant
1251 Woodlands Avenue
Mount Pleasant, SC 29464
Rate $114.00
Phone 1-843-284-0900

Hampton Inn & Suites
1104 Isle of Palms Connector
Mount Pleasant, SC 29464
Rate $116.00
Phone 1-843-856-3900
**Friday, January 18, 2019**

East Cooper Medical Pavilion, Garden Room, 1600 Midtown Ave, Mount Pleasant, SC 29464

</table>
High-resolution manometry (HRM) is an instrumental evaluation that permits measurement of intraluminal pressure activity in the pharynx and esophagus.
Faculty

**Gregory N. Postma, M.D.** is a Professor in the Department of Otolaryngology-Head and Neck Surgery at the Medical College of Georgia of Augusta University and is the Director of the Center for Voice, Airway and Swallowing Disorders since 2005.

In 1984, Dr. Postma received his medical degree from Hahnemann University in Philadelphia and he completed his residency in Otolaryngology at the University of North Carolina at Chapel Hill in 1993. He took a fellowship in laryngology and professional voice at Vanderbilt University and joined the faculty at Wake Forest in 1996.

He is the author or co-author of more than 110 peer-reviewed publications, edited three books, and has written 60 chapters and invited articles. He has given more than 600 presentations on a wide array of laryngologic topics. He has been selected as one of America’s Top Doctors, a reference that identifies the top one percent of physicians in the nation, for a number of years.

**Ashli K. O’Rourke, M.D.**, is originally from Orlando, Florida. She attended Florida State University where she received her Bachelors and Masters degrees in Speech – Language Pathology & Audiology. She practiced clinical speech-language pathology for over seven years at Emory University Hospitals in the Atlanta area, specializing in dysphagia evaluation and management.

Dr. O’Rourke attended medical school at the Medical College of Georgia, graduating in 2005. She completed both her general surgery internship and her otolaryngology – head and neck surgery residency at the University of Virginia in Charlottesville, Virginia. She went on to complete a fellowship in Laryngology – Voice and Swallowing Disorders at the Medical College of Georgia.

Dr. O’Rourke has been board certified through the American Board of Otolaryngology since 2012. Her career interests include swallowing disorders (dysphagia), voice disturbances, and airway concerns. Her research interests include the use of high resolution manometry in the evaluation and treatment of oropharyngeal dysphagia.

**Kate W. Davidson, MS, CCC-SLP** is a Speech-language pathologist and Research Associate at the Medical University of South Carolina. She is Assistant Lab Director of the Swallowing Cross-System Collaborative at Northwestern University in Evanston, Illinois.

Kate received her Masters degree in Communication Sciences and Disorders from the Medical University of South Carolina in 2010 and completed her Clinical Fellowship under the direction of Dr. Bonnie Martin-Harris, Dr. Terry Day and Julie Blair at MUSC in 2011.

Her clinical focus is in adult swallowing disorders and her research interests include standardization of the videofluoroscopic swallow study and the use of high-resolution pharyngeal manometry as an assistive biofeedback device for swallow rehabilitation.
