The 6th Annual
Charleston Pediatric ENT Update

February 9, 2019
Courtyard Marriott Charleston Historic District
Charleston, SC 29401

Course Director: David R. White, M.D.
Professor
Director, Pediatric Otolaryngology
MUSC Children’s Hospital Surgeon in Chief

musc.edu/ent/cme
The sixth annual Charleston Pediatric ENT Update is a comprehensive full day course designed to provide otolaryngologists, pediatricians, and family practitioners with up-to-date guidelines to implement in their daily practice, promote quality and efficient care, and tackle challenging ENT diagnoses with confidence.

Course Objective
Upon completion of this course the participant should be able to better examine and justify regional and institutional variations in standards of care for children with cervical lymphadenopathy, chronic rhinosinusitis, and unilateral hearing loss.

Keynote Speaker
Jeremy D. Meier, M.D.
Associate Professor
Otolaryngology - Head & Neck Surgery
University of Utah

Course Director
David R. White, M.D.
Professor
Director, Pediatric Otolaryngology
MUSC Children’s Health Surgeon in Chief

MUSC Oto-HNS Faculty Speakers
Clarice S. Clemmens, M.D.
Assistant Professor, Pediatric Otolaryngology

Christopher M. Discolo, M.D., M.S.C.R.
Assistant Professor, Pediatric Otolaryngology
Medical Director, Craniofacial Anomalies and Cleft Lip & Palate Team

Meredith A. Holcomb, AuD
Clinical Director, Cochlear Implant Program

Theodore R. McRackan, M.D.
Assistant Professor, Otology - Neurotology
Director, Skull Base Surgery Center

Krishna G. Patel, M.D., Ph.D
Associate Professor
Director, Facial Plastic & Reconstructive Surgery

Phayvanh Sjogren, M.D.
Clinical Instructor, Pediatric Otolaryngology

Charleston
#1 World’s Best City
Travel & Leisure 2016

#1 Top U.S. City
7th consecutive year!
Condé Nast Traveler Readers’ Choice Awards
7:30 - 8:00 a.m.  Registration and Breakfast, meet Exhibitors
8:00 - 8:05 a.m.  Welcome ................................................................. David R. White, M.D.
8:05 - 8:35 a.m.  Avoiding Complications in Airway Foreign Body Management
........................................................................................................ Phayvanh Sjogren, M.D.
The participant should be better able to evaluate factors that lead to adverse outcomes in pediatric airway foreign body management.

8:35 - 9:05 a.m.  Management of Opioid Prescribing Patterns After Tonsillectomy
........................................................................................................ David R. White, M.D.
The participant should be better able to: A) routinely reassess their opioid prescribing practices. B) Assess the role of non-narcotic analgesic use in the treatment of post-tonsillectomy pain.

9:05 -9:50 a.m.  Risk Reduction After Pediatric Obstructive Sleep Apnea Surgery
........................................................................................................ Christopher M. Discolo, M.D.
The participant should be better able to: A) assess patient and procedural factors that predispose an increased risk of peri-operative complications; B) Formulate treatment strategies to mitigate these risks.

9:50 - 10:10 a.m.  Q&A
10:10 - 10:25 a.m.  Break, networking with exhibitors
10:25 - 11:10 a.m.  Improving Value in Tonsillectomy and Adenoidectomy
........................................................................................................ Jeremy D. Meier, M.D.
The participant should be better able to: A) Illustrate how to measure value for surgical procedures; B) Compare variation in costs and outcomes for tonsillectomy and adenoidectomy; C) Develop approaches to improve value and efficiency for common surgical procedures.

11:10 - 11:20 a.m.  Q&A
11:20 - 12 p.m.  Diagnostic Workup in Infants and Children with Sensorineural Hearing Loss................................................. Ted McRackan, M.D.
The participant should be better able to develop an organized diagnostic approach to pediatric patients with sensorineural hearing loss.

12 - 12:30 p.m.  Expanding Indications for Cochlear Implantation in Children
........................................................................................................ Meredith A. Holcomb, Au.D.
The participant should be better able to: A) compare historical audiometric qualifications and speech recognition scores included in early FDA- indications for cochlear implants to those being used today; B) examine various ways that audiometric test measures are being modified in present day clinics to determine candidacy for a cochlear implant; C) apply what they have learned about recent changes in CI candidacy to develop their own protocols for CI recommendations or for referral to a CI clinic.

12:30 - 12:45 p.m.  Break, networking with exhibitors
12:45 - 1:45 p.m.  Lunch Panel: Postoperative Management After Pediatric Adenotonsillectomy .......................................................... David R. White, M.D., Clarice S. Clemmens, M.D., Chris M. Discolo, M.D., Jeremy D. Meier, M.D.
The participant should be better able to integrate current clinical practice guidelines advising against routine antibiotic use after tonsillectomy.

1:45 - 2:30 p.m.  Managing the Squeaky Baby ............................. Jeremy D. Meier, M.D.
The participant should be better able to: A) review upper airway anatomy and physiology in infants; B) Interpret common causes of noisy breathing in children; C) Compare management options in infants with airway obstruction

2:30 - 3 p.m.  Current Concepts in Pediatric Dysphagia
.................................................................................................................. Clarice S. Clemmens, M.D.
The participant should be better able to: A) assess pediatric patients with dysphagia using appropriate subjective and objective measurements; B) apply current evidence-based strategies to manage pediatric dysphagia

3 - 3:15 p.m.  Q&A

3:15 - 3:30 p.m.  Break, networking with exhibitors

3:30 - 4:10 p.m.  Vascular Anomalies in Children .......................... Krishna G. Patel, M.D.
The participant should be better able to differentiate between the clinical presentations of hemangiomas and vascular malformations.

4:10 - 4:25 p.m.  Q&A

4:25 p.m.  Adjourn. Please submit all CME/CEU forms - thank you!
