I. Policy Statement
MUSC strives to impart the values of professional and collegial attitudes and behaviors in interactions among members of the University community and prohibits behaviors toward students that are unfavorable to the development of mutual respect.

II. Scope
All members of the MUSC enterprise are expected to comply with this policy. In addition, any organization with which MUSC has an affiliation agreement must ensure MUSC students are treated in accordance with this policy.

III. Approval Authority
The Executive Vice President for Academic Affairs and Provost is the approval authority for this policy.

IV. Purpose of This Policy
The purpose of the policy is to maintain an academic and clinical environment in which faculty, fellows, residents, students, and staff work together to achieve our tripartite mission of education, research, and the provision of quality patient care.

V. Who Should Be Knowledgeable about This Policy
All MUSC students and the entire MUSC community should be knowledgeable about this policy.

VI. The Policy
A. MUSC encourages attitudes and behaviors toward and among students that are favorable to their professional growth, learning, and the development of mutual respect. Examples of appropriate behavior include exhibiting a high standard of moral and ethical behavior, interacting with students with courtesy and respect, applying conflict management strategies when dealing with difficult situations, demonstrating respect for cultural, religious, and generational differences, applying active listening skills to interactions, and providing constructive and timely feedback.

B. MUSC prohibits behaviors toward students that are unfavorable to the development of mutual respect. Examples of inappropriate behavior toward students include, but are not limited to, belittling or making degrading remarks to students; any inappropriate physical contact; threats of inappropriate contact or treatment; having an intimate or romantic relationship with a student for whom faculty,
staff, and/or clinical preceptor has direct supervision or oversight (even in cases with consenting adults); and, any other behavior that would create a hostile work place/learning environment for the student.

C. MUSC provides avenues for students to present complaints when they believe they have been mistreated.
   1. MUSC respects students’ rights to report complaints and receive a fair review of complaints without fear of retaliation.
   2. When an allegation of mistreatment is raised, the parties may seek to resolve the matter themselves when appropriate.
   3. Alternatively, students who believe they have been mistreated are directed to follow the MUSC Student Complaint Policy, which provides options for addressing informal and formal written complaints.
   4. Students who lodge a formal complaint regarding a violation of this policy will inform their Dean’s Office and the Office of the Associate Provost for Educational Affairs and Student Life.

VII. Special situations
Students with complaints related to allegations of gender inequity or sexual harassment will contact the Title IX Coordinator who will follow established policies and procedures. Students are encouraged to contact Public Safety for complaints related to alleged criminal activity.

Other learners (non-MUSC students) on campus who believe they have been mistreated should report their complaint to the program sponsoring their learning experience.

VIII. Sanctions for Non-compliance
Individuals who are found accountable for mistreating students will face disciplinary action as determined by the supervising entity.

X. Communication Plan
The policy will be published in *The Bulletin*, the MUSC document of authority for all students. Information regarding the Treatment of Students Policy will be included in new student orientation materials (e.g., MyQuest modules, college handbooks, etc.). Senior administration will communicate the policy to their teams and units using normal communication channels.
