Get in the Game with Intramural Sports at the Medical University of South Carolina

Bring your “A” game from the classroom to the field with our five-sport intramural program. The Student Government Association (SGA) sponsors flag football and volleyball in the fall, basketball in the winter and summer, and indoor soccer in the spring. Competitive and co-recreational teams are offered for each sport. Eligible participants include students and their spouses, employees and Wellness Center members.

SGA also offers other recreational activities in conjunction with the Wellness Center that provide students the opportunity to enhance their well-being. Stay connected with these opportunities through Student Communications.
