

VASCULAR & INTERVENTIONAL RADIOLOGY

Department of Radiology

SCOPE OF PRACTICE PGY-6

- Develop and refine interpretive skills related to diagnostic vascular and nonvascular radiological imaging.
- Develop and refine technical performance of vascular and nonvascular interventional radiology procedures.
- Continually improve the efficiency in the assessment of clinical problems, and understand the risks and benefits of minimally invasive procedures as a possible cost effective solution.
- Assist in the supervision of lower level residents on their Vascular and Interventional Radiology rotation in daily work, during call, and in conferences.
- Consult with clinicians, surgeons, residents, and medical students with regards to choosing correctly indicated diagnostic and interventional studies, in order to provide support for their services and patients.
- Participate in radiology and interdepartmental conferences, providing assessment, consultation, and support in matters related to vascular and interventional radiology.
- Participate in the instruction of medical students taking the Vascular and Interventional Radiology elective as well as students visiting from other services.
- Participate in quality control of procedures and services.
- Develop and refine skills in the assessment of patients requiring diagnostic and interventional procedures.
- Participate in the preprocedural preparation and postprocedural care of patients undergoing diagnostic and interventional examinations under the supervision of attending physicians.

VASCULAR & INTERVENTIONAL RADIOLOGY

Department of Radiology

SCOPE OF PRACTICE

PGY-6

- Consult with clinicians, surgeons, residents, and medical students with regard to the follow up care of patients having undergone diagnostic and interventional procedures.
- Participate in research projects within the division of Vascular and Interventional Radiology.
- Develop an understanding of moderate sedation as outlined by the Department of Anesthesia so it can be administered to patients in a safe manner.
