

PHYSICAL FUNCTION REQUIREMENTS

These are physical (technical) standards such as manual dexterity, hearing, fine motor skills, mobility, vision, and communication that are required for completion of the program. The standards are basic and essential requirements that may also be necessary to be able to obtain employment in the field of histotechnology. Applicants are required to read this document and sign below stating that they meet these requirements.

- Ability to perform job functions while standing. (Continuous)
- Ability to perform job functions while sitting. (Continuous)
- Ability to perform job functions while walking. (Frequent)
- Ability to climb stairs. (Infrequent)
- Ability to work indoors. (Continuous)
- Ability to work in cold temperature extremes (cryostats/freezers). (Frequent)
- Ability to bend at the waist. (Frequent)
- Ability to twist at the waist. (Frequent)
- Ability to perform 'pinching' operations. (Continuous)
- Ability to fully use both hands/arms. (Continuous)
- Ability to perform repetitive motions with hands/wrists/elbows and shoulders. (Continuous)
- Ability to fully use both legs. (Continuous)
- Ability to reach in all directions. (Continuous)
- Possess good finger dexterity. (Continuous)
- Ability to maintain tactile sensory functions. (Continuous)
- Ability to maintain good olfactory sensory function. (Continuous)
- Ability to lift and carry 30 lbs , unassisted. (Frequent)
- Ability to lift and carry objects up to 30 lbs a distance of five (5) floors and to outlying buildings. (Frequent)
- Ability to lift objects from floor level to height of 72 inches, to 30 lbs, unassisted. (Frequent)
- Ability to lower objects, weighing up to 30 lbs, from height of 72 inches, unassisted. (Frequent)
- Ability to push/pull objects to 50#, unassisted. (Infrequent)
- Ability to maintain 20/40 vision, corrected. (Continuous)
- Ability to see and recognize objects close at hand. (Continuous)
- Ability to see and recognize objects at a distance. (Continuous)
- Ability to match or discriminate between colors. (Continuous)
- Ability to determine distance/relationship between objects; depth perception. (Continuous)
- Good peripheral vision capabilities. (Continuous)
- Ability to maintain hearing acuity, with correction. (Continuous)
- Must be ambidextrous.
- Ability to perform gross motor functions with frequent fine motor movements. (Continuous)
- Ability to be qualified physically (by medical personnel) for respirator use, initially and annually.
- Ability to work alone in isolated areas, such as darkrooms.

I have read the above and meet the stated physical requirements.
