Proxy Now Workaround

Workaround 1
1. Click Proxy Now
2. Start typing the name until you see the name appear
3. Use the arrow key on your keyboard to arrow down to the correct person
4. Use your mouse to click the OK button. (Does not work if you click the Enter key instead)

Workaround 2
1. Instead of clicking the Proxy Now link, click the Options link at the top right.
2. Click Proxy
3. Click Become Proxy
4. Choose the name from the drop-down list (you can use your mouse here without a problem).
5. Click the Go button.
