SUSAN E. LEDERER, PhD, is the Robert Turrell Professor and Chair of the Department of Medical History and Bioethics, at the University of Wisconsin School of Medicine and Public Health, in Madison, WI. She is the author of Frankenstein: Penetrating the Secrets of Nature (Rutgers University Press, 2002), which is the centerpiece for an exhibition on Frankenstein that she has curated for the National Library of Medicine. Among her scholarly interests are medicine and popular culture, research ethics, and the history of medical ethics.

KATHLEEN BÉRES ROGERS, PhD — Associate Professor of English, College of Charleston, Charleston, SC. At the College, she teaches courses in late eighteenth- to early nineteenth-century British literature and culture and, more broadly, in literature and medicine. She has published about medical and proto-psychological phenomena in the Romantic era, in which the Frankenstein story is located.
