Are you part of POSEIDON?

Kidney Disease in South Carolina...

Your contribution is needed.

Tell me more about POSEIDON.

POSEIDON is hosted by the Medical University of South Carolina’s Division of Nephrology and Southeastern Kidney Disease Consortium, the POSEIDON study is an MUSC sample bank for use in research.

¬ Used to help improve health and quality of life in patients with kidney disease.
¬ Anyone can participate.
¬ Samples collected during your clinic visit such as Kidney Tissue, DNA, Blood, or Urine will be used in the bank.
¬ All patient information and samples will remain confidential.
