Item 6. Medical University Hospital Authority Status Report

Dr. Cawley reported on the following:

FY 2016 Goal Performance to Year to Date - Dr. Cawley commented that since we are only a few months into the new fiscal year, it's hard to give a progress report.

Update on Initiant – Dr. Cawley reminded the board members that Initiant is the collaborative that was formed over a year and a half ago between the five largest hospitals in South Carolina. The primary focus has been the work on group purchasing. Dr. Cawley reported that between the five hospitals, over one billion dollars is spent annually in supplies. Huron Healthcare was hired to serve as intermediary between the hospitals and identified three areas for costs savings: local benefits include things we can do better at each of the organizations; collaborative benefits – things we do together such as purchasing, etc.; and Group Purchasing Organization (GPO) – recommendation that we all use the same GPO.
Under local benefits, Huron reported that the midpoint range MUSC could potentially save is $5.7 million. Under collaborative benefits, the midpoint potential savings is $10.2 million. Under the GPO, the decision was made by Initiant to pursue a group purchasing agreement for all participating entities with Novation and, since MUSC already contracts with Novation, we will potentially get an even greater savings estimated at $8.6 million over a five year period.

**Magnet / Nursing Excellence** – Dr. Cawley reported that MUSC recently achieved Nursing Excellence / Magnet Status. Only 422 hospitals in the U.S. and 3 hospitals in South Carolina have achieved Magnet Status.

**Action**: Report received as information.

**Item 7. Medical University Hospital Authority Financial and Statistical Report**

Steve Hargett reported that the FY15 Audit has been completed and the representative letter will be sent later today stating that nothing unusual has taken place since the fieldwork has been completed and today and then it is expected that KPMG will issue final financial statements later today. Mr. Hargett commented that there have been no changes in the bottom line from what was presented a couple of months ago. Mr. Hargett commented that FY15 was another good audit year for MUSC.

For FY15 through August, we are $2 million ahead of budget. Days in A/R are at 55. Days cash on hand at 35. We continue to stay over $100 million in the bank.

FY16 risks include the unfunded pension liability (GASB 68) of which $200 million is allocated to MUHA. This is considered a risk since we are unsure how the State Comptroller’s office is going to mitigate this liability. It could be that no changes may be made or we may be required to increase our employer contributions. Mr. Hargett reported that a group is going to Columbia on Monday to meet with the Treasurer’s office to get an idea of what is going to happen as HUD wants to know what the State’s plan is to mitigate this pension liability. Our other risk is the Medicare quality program (HAC penalty) of $1.9 million. The penalty was anticipated so it was budgeted for in FY16 so the actual risk ended up being $260,000.

FY16 offsets include the Recovery Audit Contractor (RAC) Settlement of $5.2 million and the 2009 Medicaid Cost Report Settlement of $2.5 million that is forthcoming.

**Action**: Received as information.

**Item 8. Report on Quality and Patient Safety**

Dr. Danielle Scheurer reported on the following:

**Performance: Zero Harm Awards** - The following departments were recognized by SCHA for milestones in being CLABSI-free for 12 months: pediatric cancer; pediatric intensive care unit; and medical intensive care unit. The Surgical-Trauma intensive care unit was recognized for being CLABSI-free for 18 months.
UHC Rankings – Dr. Scheurer reported that our overall score improved in FY15 as we went from 60 to 48 (lower is better). Dr. Scheurer showed the 2015 versus 2014 rankings by each of the six domains which include: equity; patient centered; safety; mortality; effectiveness; and efficiency and showed the opportunities for improvement under each domain.

Blue Distinction – Dr. Scheurer showed MUSC’s ranking in Blue Cross/Blue Shield’s Blue Distinction program. There are two levels, Distinction and Distinction Plus. Dr. Scheurer gave an overview this program and shared MUSC’s ranking under each area.

Risks to Manage
Transplant: Liver Transplant - flagged in 2012-2014 outcomes; Kidney Transplant – outcomes below expected but not “flagged”; liver kidney donor: recent UNOS survey successful; and expecting CMS site visit pending this fall.

Flooding Recovery Efforts - MUSC was able to maintain 24/7 operations the entire time.

Transparency – Dr. Scheurer reported physician-specific patient satisfaction results of high volume outpatient: physicians will be posted this fall.

Action: Report received as information

Item 9. Update on MUSC Physicians

Item 18. Operations and Facilities Report

Dr. Patrick Cawley reported on the following:

Project Final Cost:

Dr. Cawley discussed the projected cost of hospital has increased. Four driving factors are:
- Construction cost escalation
- Financing
- Donors willing to give money for certain projects
- Inaccuracy in the feasibility study

Final price and approval requests will be brought to December board meeting.

Action: Report received as information.

Steve Hargett reported on the following:
Major Events:

- Assemble/File HUD pre-application package Accepted – September 16, 2015
- Visit with State Treasurer’s Office – October 12, 2015
- HUD pre-application meeting – Washington, DC – October/November 2015

- After Hours Volumes Trends
- Pediatrics Specialty Volumes by After Hours location
- Pediatrics Specialty Volumes by MUSCP location
- Current Direction:
  - 7-Specialty Pediatric Clinic presence in Beaufort
  - After Hours site in West Ashley
  - Consolidation of venues in preparation for MOB/ASC in North Charleston

Action: Report received as information.

Item 22. Women’s Services Clinical Overview

Robin Mutz reported on Mother’s Milk Bank of South Carolina:

Human Milk for Preterm Infants:
- 7-10% of very preterm infants develop necrotizing enterocolitis (NEC)
  - Severe, inflammatory disease of gut
  - 33% infants die
  - 33% have long term problems
- 1 case of NEC can be avoided:
  - For every 15 infants who received mother’s milk
  - For every 33 infants who receive donor human milk infection is prevented
Timeline reviewed started in 2013 when SC Neonatal Consortium determined a need for donor milk to September 2015 when Mother’s Milk Bank opened in April. In September 2015, Mother’s Milk Bank of South Carolina became the 20th full member of the Human Milk Banking Association of North America.

Process for Mother’s Milk Bank of South Carolina:
- Milk donor screening and approval
- Milk dropped off at 13 depots across the state
- Milk processed, including pasteurization, the MMBSC in North Charleston
- Milk confirmed to have no growth or bacteria
- Milk distributed to SC hospital (currently 6 hospitals receiving milk)
- Statistics
  - 280 women screened
  - 77 approved donors
  - Over 20,000 ounces received
  - Over 4,000 ounces distributed to SC hospitals

Future Steps:
- Donor human milk available to all SC infants who may benefit and who have prescription from physician
- Increase milk depot sites so that all SC mothers who want to donate have access to depot
- Develop milk for infants with specialized needs

*Action: Report received as information.*
