**Item 4. General Informational Report of the President.**
Statement: Dr. Cole called on Dr. Lisa Saladin who introduced Dr. Steven Kautz, Department Chair of Health Sciences and Research and also Co-Director of the Center for Rehab Research in Neurological Conditions. Dr. Kautz’s gave a presentation to the Board on the Center of Biomedical Research Excellence (COBRE) in Stroke Recovery. Dr. Kautz explained that a COBRE is an NIH Center that is awarded to institutions in states without a history of having substantial NIH funding in order to build infrastructure and critical mass to be competitive for future NIH funding. This is accomplished through the support of Junior Investigator projects to increase critical mass and scientific cores to support better science for all MUSC investigators in the research area. Dr. Kautz stated that Phase I, (five years) is to build; Phase II (five years) is to strengthen; and Phase III (five years), to which they aspire, is to sustain. He went on to discuss the COBRE cores and the application of COBRE in stroke recovery. Dr. Kautz highlighted funding successes which include two centers in national networks; one SBIR application in collaboration with Clemson; one STTR application; three industry-sponsored clinical trials; and scientific approval for an $8 million multi-site clinical trial in NIH StrokeNet. He shared feedback on the program from the first four years and the focus on the upcoming six years. Dr. Cole thanked Dr. Kautz for his informative presentation and stated that this concluded his report.
