Kelly Hunt, PhD called the meeting to order at 11:10 am.

I. The minutes from the March 4, 2016 meeting were approved.

II. Dr. Hermayer discussed the Strategic Plan and noted that the Endocrine Senior Fellow, Andrew Dake, is working on the draft that will be ready by the end of the month.

III. Kelly Hunt reviewed slides from the Department of Medicine Grand Rounds at MUSC. The key data reviewed was on diabetes prevalence. Access limitations to prediabetes data was discussed, with suggestions of joining forces between DHEC, HSSC, and other organizations with access to data. SCIEX is capable of reading data back and forth between EMR systems (i.e. Cerner, EPIC, etc.).

IV. Sharon Eubanks discussed the problems with her DSME program through CCME. The main barrier is getting people to come. They have had to take the programs to the people because of the limitations with transportation among participants.

The meeting was adjourned at 12:25 pm

Respectfully submitted,

Kelly Hunt, PhD

Future meeting dates: Friday, September 2, 2016 in Charleston
Friday, December 2, 2016 in Columbia
