Imagine MUSC 2020 | Our Strategy for the Future

**COMMIT TO PATIENTS AND FAMILIES FIRST**
*MUSC patients and families receive the best and most compassionate care anywhere.*
We are redesigning how health care is delivered to provide patient- and family- centered care that is high-quality and evidence-based. Our teaching, clinical and research expertise lead to innovative care in partnership with our patients and their families.

**FOSTER INNOVATIVE EDUCATION AND LEARNING**
*MUSC is a recognized innovator in health sciences education and lifelong learning.*
We are evolving our educational principals and methods through interprofessionalism and technology to foster a lifelong learning environment for our patients and the MUSC community.

**BUILD HEALTHY COMMUNITIES**
*MUSC is a transformative health and wellness leader.*
We are improving the health of the MUSC family and the communities we serve with a priority on healthy lifestyles, preventive care, evidence-based care and collaborative relationships.

**EMBRACE DIVERSITY AND INCLUSION**
*MUSC is a national model for a diverse & inclusive community.*
We are committed to creating and embracing a fully diverse community where every member feels included, respected and valued.

**ADVANCE NEW KNOWLEDGE AND SCIENTIFIC DISCOVERY**
*MUSC’s discoveries change the future of health care.*
We generate and translate cutting-edge discoveries, integrating them with learning, health care and health promotion. We enhance our research and set strategic priorities linked to our clinical strengths while engaging community, academic and industry partners.
PATIENTS AND FAMILIES FIRST

- Shriners Hospitals for Children and MUSC Collaborating on Burn Unit – Letter of Intent signed to facilitate collaboration on development of a pediatric burn unit to be located within the new MUSC Shawn Jenkins Children’s Hospital.
- MUSC Pain Rehabilitation Program – MUSC has launched the state’s first-ever pain rehabilitation program, an intensive, evidence-based program to serve all of SC and rehabilitate patients with chronic pain while tapering and eliminating opioid use.

FOSTER INNOVATIVE EDUCATION AND LEARNING

- Online Game Engages Students in Simulated Health Care Interprofessionalism – MUSC created a team-based “escape room” computer game to engage students to work together to solve clinically relevant issues. The game was introduced to over 700 students at MUSC’s Interprofessional Day, where students from different academic programs learn with, from, and about each other.
- Science Communication Forum – MUSC hosted an enterprise-wide Science Communication Forum. The interactive event empowered researchers to advocate for their science with a variety of audiences including sponsors, policymakers, journalists, the public and other scientists.

EMBRACE DIVERSITY AND INCLUSION

- MUSC Named among the Best Employers for Diversity in the U.S. – MUSC ranked No. 53 out of 250 organizations on the Forbes 2018 first-ever roster of America’s Best Employers for Diversity. In addition, MUSC ranked No. 6 out of 20 institutions in the education industry.
- MUSC Recognized with Diversity Purchasing Award – MUSC Health was named Best New Program of the Carolinas by Virginia Supplier Diversity Council for contracting small-, minority-, and women-owned and businesses for the construction of the MUSC Shawn Jenkins Children’s Hospital and Pearl Tourville Women’s Pavilion.

BUILD HEALTHY COMMUNITIES

- MUSC Earns Working Well’s Strategy for Wellbeing Platinum Award – MUSC was recognized by the South Carolina Hospital Association’s Working Well initiative for being one of the first organizations to achieve the Strategy for Wellbeing Platinum award for excellence in workplace wellbeing.
- Charleston Medical District Greenway Phase 1 Launch – MUSC celebrated Phase 1 of the Greenway in collaboration with the City of Charleston, Roper Hospital and the Ralph H. Johnson VA Medical Center. With the thoughtful design of this space, it will create a live-learn community.

ADVANCE NEW KNOWLEDGE AND SCIENTIFIC DISCOVERIES

- MUSC and Clemson Partner to Design the Operating Room of the Future – A joint research team, including faculty from Clemson University and the Medical University of South Carolina, has unveiled a high-fidelity, mock operating room at the Clemson Design Center in Charleston. The goal of the project is to analyze every aspect of current operating rooms and redesign the standard with efficiency and improved patient care in mind.
- MUSC Experts Play Role in Data-Driven Stroke Study with Striking Results – Statisticians at MUSC played a role in a study that found advances in brain imaging can identify more stroke patients who can receive therapy later than previously thought. Researchers call the results striking and say they will have immediate impact and save people from life-long disability or death.
