**Required for all Students:**

*FOR ANP track students: Bright Futures is a complementary resource and you will need to bookmark the site and become familiar with this as in South Carolina ANP’s are responsible for the care of individuals 12 years of age and older. [see above]*

*** Available on MUSC Library Resource Website: Access Medicine***

Fitzgerald, Margaret (2013). Laboratory Interpretation Recorded Seminars. Available from [https://www.fhea.com](https://www.fhea.com). Search the online store for either the Online or Recorded Seminars, then select Diagnostic Interpretation from the dropdown, and then laboratory interpretation. The Modules are then listed separately or as part of the Laboratory Data Interpretation: A case Study Approach. Please note, there is a delay in access to the online modules, so do not procrastinate. There is also a time limit to the online modules, be sure to read the fine print and plan accordingly.

**The following modules from FHEA will be covered during NRDNP 856 and can be purchased individually or as part of the Laboratory Data Interpretation: A Case Study Approach Set:**
- Analysis of the WBC Count and Differential
- Assessment of Hepatic Function
- Evaluation of Renal Function
- Assessment and intervention in common anemias
