The Medical University of South Carolina (MUSC) Reproductive Infectious Diseases (RID) Fellowship Program offers Obstetrician Gynecologists the opportunity to develop a clinical and research career in the subspecialty of Infectious Diseases. The fellowship was established in 2008 and currently the program accepts 1 fellow every other year. During the 2 year program, fellows will be expected to complete the required clinical rotations in Adult and Pediatric Infectious Diseases and Microbiology. Fellows are also required to attend RID clinics: HIV GYN, HIV OB, STI and Vaginitis, Pediatric HIV, and HIV continuity clinic. Prior to fellowship completion, fellows are encouraged to complete a 7 day Exxcellence in Clinical Research course. Upon completion of this program, graduates will have an in-depth knowledge of infectious diseases, specifically those affecting women.

Reproductive Infectious Disease:
- 2 RID Faculty Members
- Faculty Appointment: Clinical Instructor
- Vacation – 3 weeks annually
- Sick Leave – 3 weeks annually
- Academic Leave – 25 days annually
- Research is supported by The Center for Women’s Health
- $5,000 towards books and conferences

Year 1: $52,500
