Speaker: Allison Eckard, MD
Associate Professor of Pediatrics and Medicine

Friday, February 10, 2017
8:00 a.m. Storm Eye Auditorium
Topic: “Early Brain and Child Development: What do we know? Why does it matter? What can we do?”
Speaker: Pamela C. High, MD
Professor of Pediatrics
Alpert Medical School of Brown University
Director, Developmental-Behavioral Pediatrics
Hasbro Children’s/Rhode Island Hospital

Heart Health Medical Director Melissa Henshaw, MD, Program Manager Janet Carter, RD, LD, CLS and
Registered Dietitian Keely Flynn, MPH, RD, LD

What’s New at Heart Health?

• Our new dietitian, Keely Flynn!

Keely Flynn, MPH, RD, LD has been a registered dietitian for 3 years and is passionate about health and wellness. She also has an uncanny ability to build rapport with kids and their families, which is critical to the success of the Heart Health program.

• Our 2nd successful 5K Fun Run/Walk for Childhood Obesity Awareness! We had twice the number of participants for this second annual event!

Mark your calendars for our 3rd annual 5K coming up in May. More details to come!

• Our 4th annual Heart Health Summer Camp offered hands-on educational experiences to 20 children and adolescents.

• Not new, but continued positive outcomes! In 2015, 499 patients returned for follow-up at least twice and 56% of those patients successfully decreased their BMI z-score! (2016 data is pending.)

• New research activity: In 2017, we will offer a state-of-the-art educational webinar series on behavioral counseling techniques in the treatment of childhood obesity.

• Expanding telemedicine offerings: We are now set up to see kids at MUSC Children’s Health at Beaufort location in addition to the various non-MUSC sites we currently service (Georgetown Pediatrics, All Children’s Pediatrics, Sea Island Pediatrics, etc.)

For more information about our program, please call us at 843-792-4717 or visit our website and Facebook page:
www.MUSCkids.org/Heart/Health www.facebook.com/MUSCkidsHeartHealth

When to refer patients: As soon as it becomes apparent that a structured, multidisciplinary management approach might be of benefit for children ages 2-21 with abnormal weight gain and/or dyslipidemia.

How to refer: For MUSC providers—enter a Heart Health referral under the facility tab & call Robyn at 2-7984. For non-MUSC providers—fax referral to Robyn at 843-792-5878.

For an appointment with a physician, please call (843) 876-0444
