Pediatric Grand Rounds

FRIDAY, OCTOBER 6, 2017
8:00 a.m.: BARUCH AUDITORIUM
284 Calhoun St.
Topic: “The State of Telehealth in our State”
Speaker: James McElligott, MD
Associate Professor, Pediatrics
Medical Director, Telehealth

New Faculty: Leslie Hirsig, MD
Please join us in welcoming the newest member of our Pediatric Radiology team, Dr. Leslie Hirsig. Leslie grew up in Jacksonville, FL, pursued her undergraduate studies at Emory University and completed medical school and Diagnostic Radiology Residency at the University of Florida. She completed a Pediatric Radiology fellowship at Texas Children’s Hospital where she received outstanding training in pediatric body imaging. She has a special interest in neonatal and fetal imaging. Leslie is enjoying exploring the food, arts, and outdoor activities Charleston has to offer.

Value Added Multidisciplinary Care

The Pediatric Radiology team welcomes your consults as we are committed to the value of multidisciplinary care. If you are interested in developing a multidisciplinary conference with radiology, please contact Dr. Hill.

Recent Research

Imaging research activities have been very successful, often in collaborative efforts with our clinical colleagues of MUSC Children’s Hospital. In the last 12 months, Pediatric Radiology faculty members have published 10 articles in peer reviewed journals, presented 11 abstracts, and given 9 invited presentations at regional or national meetings.

Pediatric Interventional Procedures

For initial consults on potential imaging guided interventional procedures, please contact a Pediatric Radiology Faculty member who can help triage and communicate the needs to our interventional radiology colleagues. In those consults, please let us know if the patient will require sedation/anesthesia.

General guidelines and contacts for interventional procedures:

Pediatric Radiology (Fluoroscopy): 792-7435
Ultrasound: Michelle Swaney 792-3045 (13140)
Vascular Interventional Radiology: Brandi Aquino (12558)
Neuroradiology/CT: Meggan Rogers 792-5777 (17077)
