Facts FAX team:
Rita Ryan, MD
Linda Howard
Andrew M. Atz, MD
Robin Rose
Amy Hauser, BSN, MBA, MHA, RN, NEA-BC

Facts FAX has been a mainstay communication for the medical staff for Children’s and Women’s Health since 2011. As the world of healthcare has experienced rapid and significant changes over the last decade, so has the delivery of information. In 2017, it is estimated that more than 40 million people in the United States utilized a mobile device to access the internet. By 2021, this number is expected to exceed 52 million people. As a proponent of continued change and progress in the area of communication, MUSC Children’s Health will be moving to a digital platform to distribute information to our key stakeholders. This new format will also have a new name, look and feel.

To that end, we will be retiring Facts Fax and introducing Currents beginning in January 2018. Currents will be delivered via a digital platform and can be accessed at any time on any device. This publication will focus not only on clinically relevant information, but also on any new and changing programs and services at MUSC, research and innovation highlights, physician profiles, patient success stories, progress about the new Shawn Jenkins Children’s Hospital and Pearl Tourville Women's Pavilion, and other topics of interest. In addition, we will be expanding the audience to reach more than 12,000 pediatric physicians across the Southeast. This will help to increase awareness of MUSC Children’s Health, its providers, our services and our commitment to improving the health of all children.

In retiring Facts Fax, much thanks its founder, Rita M. Ryan, M.D., Robin Rose, Resource Manager, and Linda Howard, Administrative Coordinator, for their diligent efforts in keeping this communication vehicle up and running.

We look forward to the New Year, the new Currents and a new way of communicating with you and others.

Mark Scheurer, M.D., Chief Medical Officer, MUSC Children’s Health

Andrew M. Atz, MD, Chair. Department of Pediatrics
