

The Times They are a-Changin': Embarking on the next era of transplantation

Speaker:

Satish Nadig, M.D., Ph.D.

Surgical Director, Pediatric &
Living Donor Transplantation

Associate Professor of Surgery,
Pediatrics-Critical Care,
Microbiology, & Immunology

Harvard and Oxford-trained surgeon and scientist, Dr. Satish Nadig, began doing research on improving organ transplantation over 15 years ago. During his scientific journey around the world, he has identified ways to shift the way we approach organ transplantation by merging immunology, physiology and engineering. Come hear how this physician, author and TEDx speaker is helping transform the future of transplantation.

October 17, 2017, 5:30 p.m.
