SPARC Version 1.5.0 New Features

SPARC Request New Features:

1. Users can click “Export Consolidated Request” to create a .csv file from the user dashboard

   ![Service Requests](image)

   *This can then be saved and manipulated in Excel*

2. Research project has been changed to “Project”

   ![Select a Research Study/Project](image)

   *Use “Project” for non-study specific service requests, i.e. consults for multiple studies.*

3. In Step 4, service request submissions changed “Get a Quote” to “Get Cost Estimate”

   ![Go Back Save As Draft Get Cost Estimate Submit to Start Services](image)

   *Choose “Get Cost Estimate” when you would like to notify service providers of intent to request their services; this allows them to review proposed budget for accuracy. Note: Radiology and MUHA Laboratory providers are reviewing services but other hospital and professional services are not currently reviewed.*

4. Satisfaction survey allows the user to cancel and exit the dialogue

5. User has the ability to report a bug or request an enhancement by click the link shown below
SPARC Fulfillment New Features:

1. Additional filter available, i.e. “Provider/Program/Core”

   ![Additional filter example]

   * Click the “Columns” logo to customize the headers. Note: The headers will reset to the default ones when the user leaves the page.

2. Patient Dashboard and study calendar visits in order for future visits

   ![Patient dashboard example]

3. For each patient visit, the user is able to use “reset visit” to reset the visit calendar, and clear the complete date

   ![Reset visit example]

4. Certain fields sync from admin portal to fulfillment, please see fields below

   ![Sync fields example]

5. Added “clear” function to the search bar

   ![Search bar example]

Version Date: 10/28/2015
6. Right click the “Back” button shows a list of the recent visited pages that the user is able to revert back to; Left click the “Back” button reverts to the last visited page

7. Added additional fields under “Study Level Activities”, i.e. Account, Contact

Study Level Activities

<table>
<thead>
<tr>
<th>Service</th>
<th>Account</th>
<th>Contact</th>
<th>Type</th>
<th>Requested</th>
<th>Remaining</th>
<th>Started</th>
</tr>
</thead>
<tbody>
<tr>
<td>Protocol Review</td>
<td>-</td>
<td>-</td>
<td>each</td>
<td>1.0</td>
<td>1.0</td>
<td></td>
</tr>
<tr>
<td>Dry Ice</td>
<td>UDAK</td>
<td>Leila Forney</td>
<td>Per Unit</td>
<td>20.0</td>
<td>20.0</td>
<td>10/27/2015</td>
</tr>
</tbody>
</table>

8. Service level activities are categorized by the service type, and roll up when the button is clicked, as shown below
9. In order to “complete” or “incomplete” all, click “select services” and then choose “Select all”; The user can also choose the group of services from the drop-down list to “complete” or “incomplete” them.

* Individual cores must be selected to perform the steps described above.

10. Tool tips can be found throughout the new version of SPARC Fulfillment

* These tips identify the button functions or partially-displayed values;

11. In Task List, added the “Protocol ID” option in the drop-down list of customized columns

Task List

Version Date: 10/28/2015
