PART 1 - GENERAL

1.01 PROJECT
A. Name: Anderson House HVAC Piping Installation

PART 2 - ADDENDUM ITEMS

2.01 GENERAL
A. The following items shall be included in and become a part of the Base Specifications and/or original drawings.

2.02 PLAN HOLDERS LIST
A. HR Allen, John Conklin, 843-747-4100, john.conklin@hrallen.com
B. Triad Mechanical, Ron Runyon, 843-556-5636, ron@triadmc.com
C. CR Hipp, Bob Burris, 843-744-4477, bob.burries@crhippconstruction.com

2.03 QUESTIONS
A. Route piping per plans? Contractor shall follow the pipe routing per the drawings.

2.04 SPECIFICATIONS
A. ADD the following notes to the specification 23 21 13:
1. All underground piping shall be sloped to high point with an air vent installed above ground.
2. Vent and drain valves shall be 2" treadered bronze one piece body ball valves with reinforced TFE seats and seals and bronze trim equal to Nibco T-560-BR-R-20.
3.

2.05 DRAWINGS
A. M002:
1. Revise sequence of operation to read: A DEDICATED CONTROLLER SHALL BE MOUNTED TO CONTROL EACH UNIT AS NOTED BELOW. JCI SHALL MAKE POINTS VISIBLE AND ADJUSTABLE THROUGH THE CAMPUS WIDE BAS.
2. Revise Detail 2/M002: Provide two temperature sensors (not one) on the piping to the pumps (each control valve will have a temperature sensor)
