GEOTECHNICAL CONSULTANT:

When the services of a geotechnical consultant are required on an Indefinite Delivery Contract (IDC) the Office of the State Engineer generally has firms on a statewide contract. A list of these consultants with their names and numbers can be obtained from MUSC Contract Administration or from the Office of the State Engineer. The statewide contract does not have any dollar limit. These designated consultants are under contract for one year and their contracts can be renewed for up to 4 years.

When a geotechnical consultant is chosen, contact them with the scope of work, have them Complete a SE-955 form, issue a requisition and they are under contract.
