

# MUSC Green Day: April 28, 2009

Waste stations were clearly marked and volunteers monitored the trash sorting

The Media came!!! Christine is interviewed by Ch 4 reporter

We collected compost and recycling...

... we shredded paper!

The weather was beautiful...

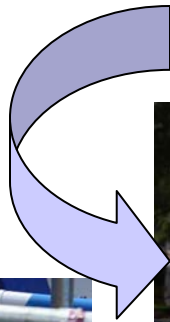

Ideas were exchanged...

# Watermissions International had the largest exhibit

The water that the fire department used to fill the tank was muddy but within two hours the solar powered water filter that volunteers had built made it crystal clear!

# Environmentally Friendly Products:

Garden Composter from Charleston County

Rain Barrels from Cloudstream Water Harvesting

Compostable service ware from Southern Sustainable Resources

# Sustainability and Recycling staff were hard at work!

Christine, Caroline, Anna, Sparky, Tony and Pete; Jason was on vacation...

# Green Vendors

Coastal Conservation League

Maid Pure

Sierra Club

Sustainable Warehouse

Solar Hot Water Works
