1. Place a yellow MUSC Hazardous Waste Label on all chemical waste determined as hazardous.
2. Include the full chemical name on the label.
3. Hazardous waste container must remain closed unless waste is being added.
4. Waste containers must be in good condition.

Examples of Regulated Waste:
- Ethanol
- Isopropanol
- Xylene
- Glacial Acetic Acid

1. Place a blue MUSC Non-Regulated Waste Label on all chemical waste not regulated by US EPA/SCDHEC.
2. Include the full chemical name on the label.

Examples of Non-Regulated Waste:
- Ethidium bromide
- Diaminobenzidine

Waste generators should go to link below to fill out the online Chemical Waste Pickup Request.

We will not pick up any unidentified waste.

The steps in this guide help staff comply with SCDHEC regulations R.61-79.265.173(a), 262.34(c)(1)(ii), 262.11, and MUSC policy. This step-by-step guide is not all inclusive of all safety measures, but provides main points for safe hazardous waste generation.
