

### STATEMENT OF AUTHORITY

The policies and procedures contained in the Occupational Safety and Health Manual of the Medical University of South Carolina are applicable to all departments of the University and Medical Center. Upon publication of these procedures, the University Safety Committee of the Medical University of South Carolina is hereby authorized to act as agent for the Institution involving matters of review, control and mediation arising from work, research and studies performed at the institution.

Furthermore, it is hereby declared that the Director of Occupational Safety and Health of the Medical University of South Carolina derives his authority from the Office of the President of the Medical University of South Carolina in all matters involving environmental health and safety and/or violations of accepted rules or practices as described herein including the authority to stop any act that jeopardizes the safety of any student, patient, faculty, staff or visitor on the MUSC campus.

Raymond S. Greenberg, M.D., Ph.D., President  
Medical University of South Carolina
