MUSC has developed a half-acre of the North Garden as an educational garden with the goal of creating opportunities for our community to learn how to eat for health. It is designed to be a living classroom where students, faculty, staff, and the community come together to explore the connection between food and health through hands-on learning about the many varieties of vegetables, fruit, and herbs grown locally.

Contact us to find out about volunteering opportunities
http://academicdepartments.musc.edu/urbanfarm/contact/contact.html

AND
Champney’s Farm
