Sample Celebration Policy

We the staff of ____________________________ commit to healthier students by instituting a policy on healthy celebrations at our school. We are trying to set a positive example and model healthy behaviors for our students. This policy will not be successful without full participation of parents and school staff.

Classroom and other school achievements will be celebrated either with non-food rewards or recognized with healthy foods. The foods and beverages offered at these celebrations must meet nutrition standards of the USDA School Snacks/Food/Beverage guidelines.
